When Nixon spied on us and lied, ignored...

...subpoenas, Congress acted. Nearly 100 impeachment bills were filed in 1973 (many with 0-3 cosponsors) forcing his resignation. But they left high-crime precedents in place.

If Bush and Cheney are allowed to leave office without being impeached, then even worse precedents will be set. Future Presidents can mislead Congress into costly wars, spy on us, torture prisoners, nullify Congress with signing statements, and overthrow the Constitution—totally.

They'll declare: "Nixon and Bush did it. So can we." Voters don't want this to happen!!

Either hopper an impeachment bill NOW Or Cosponsor one!! SAVE our COUNTRY!!!!
